

# EMAN ZULFIQAR GHANI

## React JS Developer

📞 +92 333 8256129 @ emanzulfiqarghani@gmail.com 🔗 linkedin.com/in/eman-zulfiqar-ghani/ 📍 Rawalpindi, Pakistan

## SUMMARY

I am a creative and detail-orientated React.js developer with 2.5 years of experience creating responsive, user-friendly web applications. I am proficient in React.js, JavaScript, HTML5, and CSS3, with a particular emphasis on mobile-first design, cross-browser compatibility, and performance optimisation. I am skilled at managing state with Redux Toolkit and Redux, and I have experience integrating RESTful APIs to build dynamic, data-driven applications. I excel at creating visually appealing and efficient user interfaces with tools such as Bootstrap, Tailwind CSS, Material UI, Ant Design, and PrimeReact. I am enthusiastic about continuous learning and implementing emerging technologies to create high-quality front-end solutions that improve user experience and meet business objectives.

## EXPERIENCE

08/2022 - Present

Islamabad

### React JS Developer

#### App In Snap

A technology company focused on enhancing web application and delivering global digital solutions since 2016.

- Developed and maintained responsive, user-friendly web interfaces using React.js, Tailwind CSS, Material UI, Ant Design, PrimeReact, and Bootstrap, ensuring scalability and polished designs tailored to diverse audiences.
- Designed, developed, and maintained robust front-end user interface components, optimizing performance and user experience.
- Resolved cross-browser compatibility issues, ensuring seamless functionality across different devices and platforms.
- Worked with Redux and Redux Toolkit for state management optimizing data flow and improving application performance.
- Integrated RESTful APIs to efficiently handle data interactions, enhancing platform responsiveness and performance.
- Proactively identified and resolved issues, improving user experience through innovative solutions and best development practices.
- Worked with Git, GitHub, and Microsoft Azure for version control and deployment, ensuring smooth development workflows.

## PROJECTS

### Rahper - Admin Portal

🔗 admin.rahper.com

Developed the admin panel for Rahper, a carpooling app that enables drivers and commuters to schedule rides and send requests on the same route. Built using React.js, PrimeReact, and Redux Toolkit, ensuring a responsive design with an intuitive user experience. Implemented Role-Based Access Control (RBAC) for fine-grained user permissions and dynamic routing for seamless navigation. Designed and developed key modules, including roles management, ride history, support chat for user communication, document verification, and SMS logs for OTP tracking, enhancing overall app functionality and security.

## PROJECTS

### Rahper - Web App

Developed a ride-sharing application similar to Rahper (RideShare) with features like real-time ride booking, Google Maps API integration for navigation, and a real-time chat system using socket.io, ensuring seamless user interactions and efficient ride management.

### CDA Survey Portal

🔗 [qa-cdasurveyportal.ermispk.com](http://qa-cdasurveyportal.ermispk.com)

Designed and developed a robust web application for the Capital Development Authority (CDA) to streamline survey management using React, Redux, and TypeScript. Implemented Role-Based Access Control (RBAC) for fine-grained user permissions and Google Maps integration to visualize and manage zones, subzones, and areas. Built dynamic survey management for efficient tracking of society surveys and violations. Enhanced data visualization with Ant Design Charts and enabled real-time notifications using socket.io-client. Optimized for responsive design across desktop and mobile devices, with PDF export functionality using jspdf.

### Zindigi Microfinance Banking - Admin Portal

Developed the Zindigi application using React.js, Redux Toolkit, React Router, SCSS, and PrimeReact. Utilized React Hooks for efficient state management and lifecycle handling.

### NCS (Railway Pakistan)

Developed an admin portal and ticketing system for Private NCS Railway, managing every detail such as fare management, train timetable and status updates, ticket booking, cancellation, and printing etc.

### CMS - Invoice Management System

🔗 [qa-aisofficerevamp.appinsnap.com/MIS](http://qa-aisofficerevamp.appinsnap.com/MIS)

Developed a comprehensive system for managing projects, projects timeline, clients, employees, invoicing, billing, assets, leave, health insurance and attendance.

### Farmkar Admin Portal

🔗 <https://qa-farmkarreact.appinsnap.com/>

Developed a project for rural areas connecting farmers, lenders, and customers for 00 equipment import 02 export and related service.

## CERTIFICATIONS

### Front-end Development Libraries Certification

#### Free Code Camp

Certification from freeCodeCamp showcasing skills in front-end development libraries, including React.js, Redux, jQuery, Bootstrap, and SASS.

### JavaScript Algorithm and Data Structures Certification

#### Free Code Camp

Certification from freeCodeCamp showcasing skills in JavaScript Algorithm and Data Structures.

# CERTIFICATIONS

## Responsive Web Design Certification

Free Code Camp

Certification from freeCodeCamp indicating knowledge in HTML/HTML5, CSS/CSS3, Responsive UI.

# EDUCATION

- 04/2023 - Present

Rawalpindi

•

Bachelor of Computer Science

Virtual University of Pakistan
- 08/2019 - 09/2020

Rawalpindi

•

High School Diploma

Punjab Group of Colleges

# SKILLS

React Hooks	React proficiency	Error Handling	Unit testing	Debugging Techniques	
Integration testing	Performance Optimization		Microsoft Azure	Git/Github	
API Integration(Fetch/Axios)		Next JS	Redux Toolkit	JavaScript(ES5/ES6)	Ant Design
Material UI	Bootstrap	Tailwind CSS	Restful API	CSS framework and libraries	Responsive UI
Responsive Web Design		CSS/CSS3	HTML/HTML5	Version Control System
